

PERMIT AMENDMENT APPLICATION

A. CONTACT INFORMATION
For the purpose of requesting annual production increase, a change in ownership, a change in the operating permit term, place or purpose of use, point or rate of withdrawal
Name of Place where groundwater will be used Camp Young Judaea
Well Owner's Name Camp Young Judaea Well Owner's Phone Number 713-723-8354
Well Owner's Mailing Address 5410 Bellaire Blvd Suite 207 City Bellaire Zip Code 77401
Well's Physical Address 121 Camp Young Judaea Dr City Wimberley Zip Code 78676
Contact Person Responsible to uphold permit Frank Silberlicht Contact Person's Phone Number 713-539-8026
Contact Person's Company Name Camp Young Judaea Contact Person's Email Adress Frank @yjtexas.org
Contact Person's Name for reporting meter reading Brad Campbell Contact Person's Phone Number 512-749-2002
Contact Person's Email Address Brad@cyjtexas.org

B. AMENDMENT PRODUCTION INCREASE REASONING Provide calculations and a description of your amendment request
Example: Our community is growing and we are building five (5) new homes. We are requesting an increase of 330 gallons per day per home over the course of the year. Our current operating permit is for 2 acre feet. We understand that 1 acre foot equals to 325,851 gallons.
5 Homes x 330 gallons x 1 Year(365 days)
5 x 330 x 365= 602,250 gallons/year
602,250/acre feet = 1.848 AF
We request that Hays Trinity Groundwater Conservation District review our application to increase our current operating permit from 2 acre feet to 3.85 acre feet annually. We understand that we shall submit water service connection forms and fees for each new home prior to connecting.
Camp Young Judaea has grown rapidly in the last few years and so has our water usage. Last year we went over our permitted us by 54%, partly due to business growth, leaks in the water system and corrections to properly metering the system. We will also be adding an additional 4 buildings this year and have turned in the appropriate connection forms and fees. We had a private survey done on our water system, showing through multiple estimations that we have inadequate acre feet for current demand with recommendations to raise our operating permit to 38.7 acre feet per year. In 2017 Camp Young Judaea pumped about 18 acre feet. With a historical growth of 7% a year, Camp could potentially see and increase of 2 acre feet annually. We are requesting an increase of 18 acre feet per year to accommodate current use and future growth.
Current permit 12 acre feet
2017 overage 6 acre feet
2018 growth 2 acre feet
2019 growth 2 acre feet
2020 growth 2 acre feet
Total 24 acre feet
Camp Young Judaea request that Hays Trinity Groundwater Conservation District review our application to increase our current operating permit from 12 acre feet to 24 acre feet annually.

C. ANNUAL MAXIMUM PRODUCTION REQUEST

Current annual production

12.18

Requested annual production

24

Quantity of groundwater per year in Gallons or Acre Feet: 325,851 gallons = 1 Acre Foot

You must submit \$300 along with your amendment application if you are requesting an annual production increase or a change in permit term.

I have submitted the required \$300

D. OPERATING PERMIT TERM

current term Years

new term request Years

E. Tier Requirements Select Appropriate Tier

Tier 1 No Test: 2 acre feet or less

Tier 2 Well Performance Test: more than 2 acre feet, less than or equal to 6 acre feet

Tier 3 Aquifer Test: greater than 6 acre feet

See District Rule 11 for requirements. The test well construction notification and Rule 11 is not applicable for drilled and producing wells prior to January 1, 2010, if the well's use is for or similar to the original intended use.

F. TRANSPORTATION

AMOUNT INTENDED TO USE OUTSIDE THE DISTRICT BOUNDARIES

0

Quantity of groundwater per year in Gallons or Acre Feet: 325,851 gallons = 1 Acre Foot

G. WELL SITE AND METER INSPECTION

Upon District notification, I give my permission for District staff to enter my property to inspect my well site and meter

Signature of Well Owner or Authorized Agent

H. Other State Laws, Conditions & Requirements

Conformance to HTGCD Rules does not eliminate requirements for the applicant or contractor to conform with other State Laws. Review 30 TAC 290.38(14) and Well Construction Standards

I. PROOF OF PUBLISHED NOTICE

I shall provide the District an affidavit from a locally distributed newspaper of published notice

J. WELL TEST REPORT

Test results from Tier 2 or Tier 3 shall be provided to the District including but not limited to: HTGCD's "Certification of Groundwater Availability" report, geophysical logs, cutting samples, water quality analysis and a well construction diagram.

K. DROUGHT CUTBACK CHART

During HTGCD declared drought conditions, my annual maximum production allowable shall be curtailed by the amounts indicated on my drought cutback chart

L. FLOW METER INSTALLATION

I shall install a totalizing flow meter(s), submit monthly production totals and all required reporting information to the District.

Installation of a 1" pvc pipe is recommended.

DISTRICT USE ONLY

District Well Construction Notification Number

Date Application Received

Date Administratively Complete

Amendment Fee Amount & Check No. \$ #

M. SWORN STATEMENT

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision. The information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware there are significant penalties for submitting false information. I agree to operate the well in accordance with the Hays Trinity Groundwater Conservation District's Rules, terms, conditions and all permit provisions. I further state that I am the applicant or am authorized to act for the applicant.

I understand and agree that my typed name is considered my official signature.
